Cybersecurity (CTF), web app hardening

Julmunir Jainal

Full-Stack Developer

Education

Currently 4th year
BASILAN STATE COLLEGE
BS in Computer Science

Experience

July - August 2026
ON-THE-JOB TRAINING
DICT Office

Projects

IslaLearn
PEER LEARNING PLATFORM FOR BASU CS STUDENTS
Next.js, TypeScript, Tailwind, Django REST, MySQL

- Built async topic content, taxonomy, topic progress tracking, and 1:1 tutoring requests with JWT authentication.
- Developed in phased milestones with a maintained project spec; embedded live group video broadcasts in progress.

Java Desktop Systems
LAUNDRY MANAGEMENT MVP; HOSPITAL APPOINTMENT SYSTEM
Java Swing, MySQL

- Laundry MVP: customer records, order tracking, pricing, payments and receipts, sales reports.
- Appointment system: role-based access for staff, doctors, and patients, with patient records and analytics.

Achievements

2026
3RD RUNNER-UP, HACK4GOV 2026 CTF
BASULTA

- Solved cybersecurity challenges in a Capture the Flag (CTF) competition.
