**LinkedIn**
in/julmunir-jainal-74b841322

**Location**
Isabela, Basilan, Philippines

## Skills

**Languages**
Python, Java, JavaScript, TypeScript, SQL

**Frontend**
Next.js, React, Tailwind CSS, HTML/CSS

**Backend**
Django, Django REST Framework, Spring Boot, Node.js, REST APIs

**Databases**
MySQL, PostgreSQL, SQLite, Redis

**Tools**
Git, GitHub, Docker, Vercel, PowerShell

**Security**
Cybersecurity (CTF), web app hardening

## Education

**Currently 4th year**
**BASILAN STATE COLLEGE**
BS in Computer Science

## Experience

**July - August 2026**
**ON-THE-JOB TRAINEE, WEB DEVELOPMENT**
DICT Office

- Maintained and optimized a Django/MySQL dashboard serving ~600K records.
- Applied covering and composite indexes, sargable query rewrites, EXPLAIN analysis, and cache-key strategies.
- Wrote a PowerShell script that launches a multi-process dev environment (Redis, Django, RQ worker, React) from one console.

## Projects

**IslaLearn**
**PEER LEARNING PLATFORM FOR BASU CS STUDENTS**
Next.js, TypeScript, Tailwind, Django REST, MySQL

- Built async topic content, taxonomy, topic progress tracking, and 1:1 tutoring requests with JWT authentication.
- Developed in phased milestones with a maintained project spec; embedded live group video broadcasts in progress.

**Java Desktop Systems**
**LAUNDRY MANAGEMENT MVP; HOSPITAL APPOINTMENT SYSTEM**
Java Swing, MySQL

- Laundry MVP: customer records, order tracking, pricing, payments and receipts, sales reports.
- Appointment system: role-based access for staff, doctors, and patients, with patient records and analytics.

## Achievements

**2026**
**3RD RUNNER-UP, HACK4GOV 2026 CTF**
BASULTA

- Solved cybersecurity challenges in a Capture the Flag (CTF) competition.
